# List of families

Note: Although the sequence of bird families has undergone massive change in the past decade, it is still in flux so we retain this familiar sequence in the second edition for user convenience, and to avoid major changes before the true sequence is better established. New family designations have not always been erected within the text due to space limitations. Within families whose composition has changed since the first edition, included genera are listed below.

<b>Divers (or loons)</b> Gaviidae .....	41	<b>Treeswifts</b> Hemiprocnidae .....	261
<b>Grebes</b> Podicipedidae .....	41	<b>Trogons</b> Trogonidae .....	261
<b>Petrels and shearwaters</b> Procellariidae .....	43	<b>Kingfishers</b> Alcedinidae .....	262
<b>Storm-petrels</b> Hydrobatidae <sup>1</sup> and Oceanitidae <sup>2</sup> ..	46	<b>Bee-eaters</b> Meropidae .....	268
<b>Tropicbirds</b> Phaethontidae .....	47	<b>Rollers</b> Coraciidae .....	270
<b>Pelicans</b> Pelecanidae .....	48	<b>Hoopoes</b> Upupidae .....	271
<b>Gannets and boobies</b> Sulidae .....	50	<b>Hornbills</b> Bucerotidae .....	272
<b>Cormorants and shags</b> Phalacrocoracidae .....	51	<b>Barbets</b> Megalaimidae .....	276
<b>Darters</b> Anhingidae .....	53	<b>Honeyguides</b> Indicatoridae .....	280
<b>Frigatebirds</b> Fregatidae .....	53	<b>Woodpeckers</b> Picidae .....	280
<b>Hérons and egrets</b> Ardeidae .....	55	<b>Broadbills</b> Eurylaimidae .....	293
<b>Storks</b> Ciconiidae .....	62	<b>Pittas</b> Pittidae .....	294
<b>Ibises and spoonbills</b> Threskiornithidae .....	65	<b>Larks</b> Alaudidae .....	296
<b>Flamingos</b> Phoenicopteridae .....	66	<b>Swallows and martins</b> Hirundinidae .....	309
<b>Waterfowl (swans, geese and ducks)</b> Anatidae ..	67	<b>Pipits and wagtails</b> Motacillidae .....	314
<b>Hawks, kites, eagles and vultures</b> Accipitridae ...	82	<b>Cuckooshrikes</b> Campephagidae .....	322
<b>Osprey</b> Pandionidae .....	111	<b>Woodshrikes</b> Vangidae <sup>3</sup> .....	328
<b>Falcons</b> Falconidae .....	111	<b>Waxwings</b> Bombycillidae .....	332
<b>Megapodes</b> Megapodiidae .....	118	<b>Grey Hypocolius</b> Hypocoliidae .....	332
<b>Partridges, quails and pheasants</b>		<b>Monarchs</b> Monarchidae .....	332
Phasianidae .....	118	<b>Whistlers</b> Pachycephalidae .....	333
<b>Buttonquails (or bustard-quails)</b> Turnicidae .....	137	<b>Fantails</b> Rhipiduridae .....	334
<b>Cranes</b> Gruidae .....	138	<b>Bulbuls</b> Pycnonotidae .....	335
<b>Rails, crakes, gallinules and coots</b> Rallidae ...	140	<b>Canary-flycatchers</b> Stenostiridae <sup>4</sup> .....	335, 387
<b>Finfoots</b> Heliornithidae .....	147	<b>Ioras</b> Aegithinidae .....	344
<b>Bustards</b> Otididae .....	147	<b>Leafbirds</b> Chloropseidae .....	346
<b>Jacanas</b> Jacanidae .....	150	<b>Shrikes</b> Laniidae .....	348
<b>Painted-snipes</b> Rostratulidae .....	151	<b>Dippers</b> Cinclidae .....	352
<b>Oystercatchers</b> Haematopodidae .....	151	<b>Wrens</b> Troglodytidae .....	353
<b>Plovers</b> Pluvialidae and Charadriidae .....	152	<b>Accentors</b> Prunellidae .....	354
<b>Sandpipers and allies</b> Scolopacidae .....	160	<b>Thrushes</b> Turdidae <sup>5</sup> .....	356, 371, 389
<b>Ibisbill, stilts and avocets</b> Iborhynchidae		<b>Old World flycatchers and chats</b>	
and Recurvirostridae .....	178	Muscicapidae <sup>6</sup> .....	370, 372, 388
<b>Crab-plover</b> Dromadidae .....	181	<b>Babblers</b> Timaliidae <sup>7</sup> .....	408, 516
<b>Stone-curlews and thick-knees</b> Burhinidae .....	181	<b>Wren-babblers</b> Pnoepygidae <sup>8</sup> .....	434
<b>Couriers and pratincoles</b> Glareolidae .....	183	<b>Parrotbills and fulvettas</b>	
<b>Skuas and jaegers</b> Stercorariidae .....	186	Paradoxornithidae <sup>9</sup> .....	441, 452, 461
<b>Gulls</b> Laridae .....	187	<b>Yuhinas and white-eyes</b> Zosteropidae <sup>10</sup> ..	458, 551
<b>Terns</b> Sternidae .....	192	<b>Reedling</b> Panuridae <sup>11</sup> .....	461
<b>Skimmers</b> Rynchopidae .....	201	<b>Erpornis and shrike-babblers</b> Vireonidae <sup>12</sup> ...	465
<b>Sandgrouse</b> Pteroclididae .....	201	<b>Cisticolas, prinias and tailorbirds</b>	
<b>Pigeons and doves</b> Columbidae .....	204	Cisticolidae <sup>13</sup> .....	468
<b>Parrots</b> Psittacidae .....	218	<b>Cettiid warblers</b> Cettiidae <sup>14</sup> .....	469, 476, 478, 513
<b>Cuckoos</b> Cuculidae .....	221	<b>Grasshopper- and bush-warblers</b>	
<b>Barn-owls and bay owls</b> Tytonidae .....	233	Locustellidae <sup>15</sup> .....	484, 515
<b>Owls</b> Strigidae .....	235	<b>Reed-warblers and allies</b> Acrocephalidae <sup>16</sup> ...	489
<b>Frogmouths</b> Podargidae .....	249	<b>Phylloscopus warblers</b> Phylloscopidae <sup>17</sup> .....	496
<b>Nightjars</b> Caprimulgidae .....	250	<b>Sylviid warblers</b> Sylviidae <sup>18</sup> .....	516
<b>Swifts</b> Apodidae .....	256	<b>Goldcrests and kinglets</b> Regulidae .....	520

<b>Long-tailed tits</b> Aegithalidae <sup>19</sup> .....	521	<b>Waxbills</b> Estrildidae .....	572
<b>Penduline tits</b> Remizidae .....	523	<b>Old World sparrows</b> Passeridae .....	574
<b>Titmice</b> Paridae .....	524	<b>Weavers</b> Ploceidae .....	578
<b>Nuthatches</b> Sittidae .....	535	<b>Starlings and mynas</b> Sturnidae .....	580
<b>Treecreepers</b> Certhiidae .....	541	<b>Orioles</b> Oriolidae .....	586
<b>Flowerpeckers</b> Dicaeidae .....	543	<b>Fairy-bluebirds</b> Irenidae .....	589
<b>Sunbirds and spiderhunters</b> Nectariniidae .....	546	<b>Drongos</b> Dicuridae .....	589
<b>Buntings</b> Emberizidae .....	551	<b>Woodswallows</b> Artamidae .....	593
<b>Finches</b> Fringillidae .....	558	<b>Crows, jays, magpies and treepies</b> Corvidae ..	593

### Notes on family composition:

- <sup>1</sup> Hydrobatidae includes *Oceanodroma*
- <sup>2</sup> Oceanitidae includes *Fregatta*, *Oceanites*, *Pelagodroma*
- <sup>3</sup> Vangidae includes *Hemipus*, *Tephrodornis*
- <sup>4</sup> Stenostiridae includes *Chelidorhynch*, *Culicicapa*
- <sup>5</sup> Turdidae includes *Cochoa*, *Geokichla*, *Grandala*, *Turdus*, *Zoothera*
- <sup>6</sup> Muscicapidae includes *Brachypteryx*, *Calliope*, *Cercotrichas*, *Cinclidium*, *Copsychus* (incl. *Saxicoloides*), *Cyornis* (incl. *Rhinomyias*), *Enicurus*, *Erithacus*, *Eumyias*, *Ficedula* (incl. *Muscicapella*), *Heteroxenicus*, *Hodgsonius*, *Irania*, *Larvivora*, *Luscinia*, *Monticola*, *Muscicapa*, *Myiomela*, *Myophonus*, *Niltava*, *Oenanthe* (incl. *Cercomela*), *Phoenicurus* (incl. *Chaimarromis*, *Rhyacomis*), *Rhodophila*, *Saxicola*, *Tarsiger*
- <sup>7</sup> Timaliidae includes traditional genera plus *Graminicola*, but excludes *Chrysomma*<sup>9</sup>, *Erpomis*<sup>12</sup>, *Fulvetta*<sup>9</sup>, *Lioparus*<sup>9</sup>, *Myzornis*<sup>9</sup>, *Paradoxornis*<sup>9</sup>, *Pnoepyga*<sup>8</sup>, *Pteruthius*<sup>12</sup>, *Staphida*<sup>10</sup>, *Suthora*<sup>9</sup>, *Yuhina*<sup>10</sup>
- <sup>8</sup> Pnoepygidae includes *Pnoepyga*
- <sup>9</sup> Paradoxornithidae includes *Chrysomma*, *Fulvetta*, *Lioparus*, *Myzornis*, *Paradoxornis*, *Suthora*
- <sup>10</sup> Zosteropidae includes *Staphida*, *Yuhina*, *Zosterops*
- <sup>11</sup> Panuridae includes *Panurus*
- <sup>12</sup> Vireonidae includes *Erpomis*, *Pteruthius*
- <sup>13</sup> Cisticolidae includes *Cisticola*, *Orthotomus*, *Prinia*
- <sup>14</sup> Cettiidae includes *Abroscopus*, *Cettia*, *Horornis*, *Oligura*, *Phyllergates*, *Scotocerca*, *Tesia*, *Tickellia*, *Urosphena*
- <sup>15</sup> Locustellidae includes *Chaetornis*, *Elaphornis*, *Locustella* (incl. *Bradypterus*), *Megalurus*, *Schoenicola*
- <sup>16</sup> Acrocephalidae includes *Acrocephalus*, *Hippolais*, *Iduna*, *Phragamaticola*
- <sup>17</sup> Phylloscopidae includes *Phylloscopus*, *Seicercus*
- <sup>18</sup> Sylviidae includes *Sylvia*
- <sup>19</sup> Aegithalidae includes *Aegithalos*, *Leptopoecile*
